Dear Mr. Reader:

This Department has reviewed your June 24, 2019, response to the Notice of Violation (NOV) issued to Clean Harbors Environmental Services, Inc. on May 23, 2019. Based on this response, it has been determined that all violations and concerns cited in the NOV have been adequately addressed.

Violation 2 of the NOV has been rescinded based on this violation being cited and resolved as part of the November 13, 2018 NOV, and your February 11, 2019 response outlining corrective measures taken. This Department agrees that the additional instances of violation discovered were not new instances of violation and had been addressed by your February 11, 2019 response.

Sincerely,
